Express Communications Ltd (ECL) and AMREF Health Africa in Kenya have teamed up to organize this Convention which is intended to showcase the great milestones and achievements of the Healthcare sector in Kenya.

Although covering the entire period since independence, the Convention will particularly focus on the seven years of devolved Healthcare regime.

ECL is the publisher of the Kenya Medical Directory together with its online version www.healthcareinkenya.com and is the leading promoter and marketer of Healthcare businesses and services in the country. AMREF is a leading NGO in Kenya which provides a broad range of services that strengthens Health systems in Kenya and elsewhere in the continent.

The two firms will be joined by other key Health players, including the Ministry of Health, the County Governments, all Healthcare regulatory agencies including the Kenya Medical Practitioners and Dentists Board, to showcase Healthcare advancements which are not known to many Kenyans.
Kenya Healthcare is a powerhouse in East and Central Africa covering Burundi, DR Congo, Kenya, Rwanda, South Sudan, Tanzania and Uganda, hence the reason for showcasing Kenya as the regional Healthcare hub.

This Convention will also highlight all aspects of the Universal Health Care (UHC), one of The Big Four Agenda for the Country.
